**REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach: Regarding Claim 1, a method of making a motor vehicle wheel arch comprising both a body of thermoplastic material provided with an opening, and a mat closing said opening and fixed to the body by strips of thermoplastic material secured to the body, the method comprising injecting the strips of thermoplastic material onto the mat, allowing them to solidify in contact with said mat, and forming on at least one strip of thermoplastic material an edge of thickness that is reduced relative to the thickness of the remainder of the strip, wherein, in cross-section, the thickness of the edge is related to the width  $f$  of the edge by a mathematical function  $f$  such that:

$$\int_0^l f(x) dx \geq h^2$$

where  $h$  is the height of the edge at its junction with the strip; and Regarding Claim 9, a wheel arch constituted by a body of thermoplastic material having an opening and by a mat closing said opening and fixed to the body by strips of thermoplastic material secured to the body, the strips being injected onto the mat and solidified in contact therewith, at least one strip having an edge of thickness that is reduced relative to the thickness of the remainder of the strip, wherein, in cross-section, the thickness of the edge is related to the width  $f$  of the edge by a mathematical function  $f$  such that:

$$\int_0^l f(x) dx \geq h^2$$

Art Unit: 3726

where  $h$  is the height of the edge at its junction with the strip in combination with the other elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
